

M HEALTH FAIRVIEW WOODWINDS HOSPITAL PGY1 Pharmacy Residency

Program Overview

The Pharmacy Residency Program (PGY1) at M Health Fairview Woodwinds Hospital in Woodbury, MN is a 12-month program consisting of core and elective learning experiences that are tailored to the resident's interests.

M Health Fairview Woodwinds Hospital is an 86-bed community hospital focused on providing patient-centered care. The primary patient populations include orthopedics, obstetrics, general medicine, and outpatient oncology/infusion. During the residency year, the resident will have the opportunity to complete learning experiences at other hospitals or clinics within the system to diversify clinical experiences. The resident will also work closely with residents at other M Health Fairview sites.

PGY1 Program Purpose: PGY1 residency programs build upon Doctor of Pharmacy (PharmD) education and outcomes to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives. Residents who successfully complete PGY1 residency programs will be skilled in diverse patient care, practice management, leadership, and education, and be prepared to provide patient care, seek board certification in pharmacotherapy (i.e., BCPS), and pursue advanced education and training opportunities including postgraduate year two (PGY2) residencies.
